# A+ CERTIFICATION PROGRAM

## SHORT-TERM WORKFORCE TRAINING

**The 14-week A+ Certification program is considered the industry standard for launching an IT career. It builds skills in computer hardware and operating systems, including installation and support, troubleshooting, security, networking, mobile devices, operational procedures and more.**

### The program consists of two modules:

**MODULE 1: HARDWARE DEVELOPMENT**
In-person classes will meet weekly for seven weeks.
Classes will meet on Saturdays from 9:00 AM–2:30 PM.

**MODULE 2: SOFTWARE DEVELOPMENT**
This module will also meet for seven weeks, but consists of remote learning only.

**LOCATION & START DATES:**

**BRADDOCK HILLS CENTER**
Module 1, in-person classes: July 8–August 19, 2023
Module 2, online classes: September 9–October 21, 2023

**For information or to register:**

Overall, the 80-hour program is designed to prepare students to successfully pass the CompTIA A+ 220-1001 (Core 1) and 220-1002 (Core 2) exams. Candidates must complete both 1001 and 1002 to earn A+ certification.

Graduates who pass the exam can apply for employment in a range of IT roles, including service desk analysts, data support technicians, system support specialists, desktop support administrators, help desk technicians and more.

**PROGRAM COST:**
The A+ Certification program costs $1,405 per module, for a total of $2,810 for both modules.

*Price includes: Required textbook and two certification exams.*
