

**NURSING PROGRAM ARTICULATION  
AND  
COOPERATIVE SERVICES AGREEMENT  
BETWEEN  
COMMUNITY COLLEGE OF ALLEGHENY COUNTY  
AND  
CALIFORNIA UNIVERSITY OF PENNSYLVANIA**

The Community College of Allegheny County (“CCAC”) and California University of Pennsylvania (“CAL U”) acknowledge their shared mission to provide quality higher education programs that meet the needs of the community and promote the common good. CCAC and CAL U acknowledge their special obligation to provide greater access and new educational opportunities and do so at a reasonable cost. The institutions wish to continue to cooperate in providing a program of study that will enhance access to public education to residents of southwestern Pennsylvania as they prepare for careers in professional nursing.

The purpose of this agreement is to convey the cooperative relationship between the Community College of Allegheny County and California University of Pennsylvania with regard to the Associate of Science in Nursing Degree and the RN-BSN programs respectively. The CCAC Associate Degree and the pre-requisite licensure will qualify the student for full junior standing upon admission to CAL U. This agreement serves both to enhance the articulation of students and transferability of credits earned from CCAC’s AS in Nursing to the BSN program at CAL U, and to identify the provision of resources and conditions involved in the cooperative presence of each program on our campuses (CCAC-South campus and CAL U main campus).

The instructional programs named above shall feature the same curriculum as approved by CCAC, CAL U, the Pennsylvania State Boards of Nursing, the Accreditation Commission for the Education of Nurses, and the Commission on Collegiate Nursing Education. Both CCAC and CAL U agree to follow the standards and criteria of the Middle States Commission on Higher Education in the implementation of this cooperative program. Specific CAL U general education course requirements have been identified within the applicable program requirements. It is agreed that all courses from either CCAC or CAL U identified as meeting program requirements shall meet the degree and residency requirements for both the AS and the BSN degree. The Agreement of Articulation for the Nursing program is attached and describes the acceptance of the academic credits between CCAC and CAL U.

**I. ARTICULATION**

Applicants applying to the RN to BSN program must currently be licensed as an RN, which shall continue in force for the time of enrollment. Upon graduation and entrance to the BSN program, the RN student receives 30 credits for nursing courses taken in the entry-level program at CCAC. An *Academic Passport* also recognizes up to 30 credits of general education which may have been earned during the basic nursing program as needed to meet the requirements of the BSN program, which includes such courses as found on the Program Sheets in Appendix A. Students with more than 30 credits may transfer the additional coursework as appropriate to meet program requirements. Appendix B, attached

hereto and incorporated herein, outlines the courses necessary for the Bachelor of Science in Nursing Degree from CAL U.
