

PMI Agile Certified Practitioner (PMI-ACP®) Bootcamp

Description

This interactive, hands-on, 10-day Bootcamp provides a toolbox of skills and best practices for effective and efficient delivery of agile projects, and provides those interested in sitting for the Exam the required 21-hours of formal Agile training needed. Participants will learn proven best practices and tools that will drive sustainable project performance from inception through delivery leveraging an iterative mindset. The agile best practices and tools reviewed are leveraged from a combination of sources, including the Project Management Institute (PMI®), SAFe®, SCRUM, Lean, Kanban, and others. At the program's conclusion, participants will be able to:

- Define what Agile is, the Agile Manifesto, and the value of an Agile framework
- How to build an Agile mindset and environment
- Deliver iteratively and incrementally to add more value sooner
- Identify and manage risks and issues, including the creation of mitigation & contingency plans
- Lead and motivate teams
- Embrace complexity
- Establish clear and effective communication channels
- Identify key stakeholders, and promote stakeholder satisfaction
- Articulate Agile Best Practices
